Public hearing to consider and adopt a Final Millage Rate and Final Budget:

Hear public comment before any vote.

- Power Point presentation on Final Millage Rate and Final Budget
The Power Point was presented by Accountant Renee Lynch. Starting with revenue she explained how the proposed millage would affect the revenues received by the district. In the current year there were significant decreases in property value, which was to be expected given the devastation of the island last September. However, the total decrease in taxable value also included the \$50,000 homestead exemption, which in previous years had not been applied to any special district in Lee County. This change in policy comes from the Property Appraiser, who has interpreted the law differently than his predecessor. Therefore, although the increase in millage rate from the roll back rate of 3.1565 to the proposed rate of 3.7500 is 18.8% the actual increase to the District's revenue is only 5.91%. Renee then discussed changes to the proposed expenditure budgets. Given the budget amendments throughout the year to account for additional expenses related to Hurricane Ian many categories have significant decreases. Renee explained each major category and what the increases and decreases consisted of. Overall, total expenditures decreased by 0.48%.
- Public comment on Tentative Millage Rate: Mr. Tom Finnal asked how impact fees were collected and budgeted. Renee explained that impact fees are not guaranteed and are completely dependent on new construction, therefore we budget conservatively.
- Adopt Final Millage Rate: **Resolution 2023-009**
Commissioner Player read the resolution in its entirety, including 3.7500 mills, which is 18.8% above the rolled-back rate of 3.1565 mills.
