

Pet Locator

The Pet Locator has three reflective stickers that are easily visible with any light source. These reflective stickers help firefighters find and rescue your pet if there is a fire in your home. Follow these two easy steps. Step 1) Attach the large sticker to the outside of the door of the room in which your pet sleeps. Step 2) Attach the smaller stickers on each side of the door jamb, near the floor. See back of the Pet Locator for sticker placement example. Please remember to remove the stickers when the room is no longer occupied by your pet and replace the Pet Locator stickers every year for maximum effectiveness.
